# 1 Drawing graphics

#### 1.1 Drawing Lines

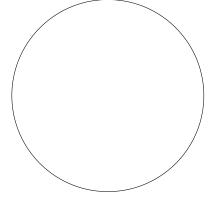

# 1.2 Drawing Circles

 $\bullet$  Circle with center at 0,0 and radius 1 cm

 $\bullet$  Another circle with center at 2,0 and radius 1 inches

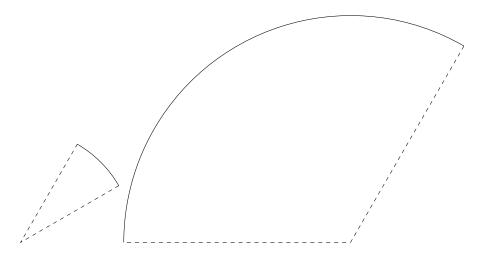

| Ellipse  | with c | center | at (3,0         | ) and 1 | radiis | s are 10 | Opt an | d 20pt |  |
|--|--------|--------|-----------------|---------|--------|----------|--------|--------|--|
| 1.4  | Drav   | ving   | $\mathbf{Rect}$ | angle   | es     |          |        |        |  |
| Rectangle with left corner at $0.0$ and bottom right corner at $5.4$ |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         | 1      |          |        |        |  |
| 1.5 Drawing a grid   |        |        |                 |         |        |          |        |        |  |
| Grid with left corner at 0,0 and bottom right corner at 5,4          |        |        |                 |         |        |          |        |        |  |
|  |        |        |                 |         |        | Ü        |        |        |  |

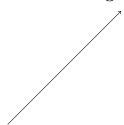

1.3 Drawing Ellipse

### 1.6 Drawing arcs

 ${\it arcs}$  have a syntax of start\_angle : stop\_angle : radius

### 1.7 Drawing an arrow

## 1.8 Drawing text at a position

$$f(x) = \nabla$$

# 1.9 Labeling a figure

This is a right labelled circle
